*We've added Tissue Viability

What does the Care Certificate Assessor Course cover?

The Care Certificate Assessor Course takes place over two days and enables learners to:

Day One

- Understand the Care Certificate Standards
- Understand the role of the Assessor
- Understand and practice holistic and direct assessment methods
- Learn what is fair, valid, authentic and sufficient evidence of competence
- Understand constructive feedback
- Understand good record keeping

All learners will receive electronic customised resource packs including: competency framework and template forms for completing assessments that can be used in your organisation.

Day Two

- Reflection on practice
- Evaluation of practice
- Understanding standardisation
- Further practice of holistic and direct assessment methods
- Feedback and Case Studies from learners

The two days of training are split to allow time to use the skills developed on day one before evaluating the performance as part of day two.

What does the Care Certificate Assessor Course cost?

The Care Certificate Assessor Training costs £150 (excluding VAT) per person.

If you have 3 or more people who require training we can come to you at no extra cost!
